

## EXAMPLES OF SOME PAST TIMEZONES PROJECTS

### Tredegar House – Children’s Summer Activity Days

Children would tour the house and meet characters from its history, performed by us, then spend the day working with us on creative projects including puppet making, mask making, toys & games, newspapers, and carnival costumes, often ending the day with a performance for parents and carers.

### Borough Theatre – Saturday Fun Days

**Saturday Fun Days for 4-7 year olds!**

**11am - 1pm**  
Jan & Andy are back with another exciting series of their popular mix of plays and activity sessions, full of comedy and fun things to do and make.

**23 September Building Blocks**  
Trainee builders wanted! Help us to build a house at the Borough.

**21 October Dinosaur Do's**  
Would you recognise a dinosaur if you saw one? Come along to the Borough for some Dino spotting tips.

**11 November Mega Mechanics**  
Help us to design the best fairground ride ever! A morning of fun with forces.

**16 December Christmas Capers**  
Festive fun and adventures. Follow the mysterious clues to find Father Christmas. Ho Ho Ho!

**Tickets: £4 (accompanying adults free) Refreshments included.**

Please Note: All children must be accompanied by an adult.  
**BOX OFFICE SWYDDFA DOCYNNAU 01873 850805**

These were Play and Make sessions for 4-7 year olds that we ran for ten years until funding ran out a few years ago. We would perform one of our exciting interactive plays followed by craft workshops where children would make something inspired by the performance, which they could then take home.

### Gloucestershire Libraries – Various drop in activity sessions

As part of last summers SRC we performed our play ‘Space Sleeper’ in a number of libraries to rave reviews. We have also run drop in sessions on the Romans, and performed our play ‘Dinosaurs’, as well as running a play and make session featuring our KS1 play ‘Mega Mechanics’.

**Kids get to design their own fair ride**

**C**HILDREN rolled up for all the fun of the fair at Cirencester Library.

Four to nine-year-olds helped to design the best fairground ride ever – with coloured lights and loud sound effects – as part of a half-term week’s Science Fair.

The youngsters were learning about forces and motion in a Mega Mechanics session run by Andy Thorn from Time Zones.

Displaying a painting of a fairground ride and a trolley packed with items including balls, a horn and coloured lights, Mr Thorn called for children’s ideas on how to make the attraction really come alive.

Customer service librarian Joanna Palmer said: “All the kids have been very engrossed. They also made masks and a moveable teddy.”

Other events feature a Gods and Planets Astral Mobile workshop tomorrow, giving an insight into astronomy, and a Friday session to meet an 18th century doctor/surgeon at a Potions, Plagues and ‘Pothecaries’ workshop. Booking is necessary for both on 01285 659813.

**GETTING CREATIVE: Maddie Lawrence at Cirencester Library**

## Dinosaurs at Charlton Kings Library

NEW PAL: Rosa Mercurio with one of the dinosaur puppets

### Dino delight as puppet show entertains

YOUNGSTERS were roaring with laughter at Charlton Kings library during a dinosaur puppet show.

The show was staged by Time Zone, an educational puppet company.

Customer service librarian Cheryl Cliff said: "It was entertaining for the parents as well as the children.

"The show included the hidden comedy that appealed to adults and

it meant they didn't have to grin and bare it as you have to do at so many of these children's events.

"Time Zone are now in demand - I had all the children asking me when I'm getting them back."
